

BoomTomb™

In-Ground Subwoofer

Great musical entertainment should follow you are. Outdoor environments are just as important as those we carefully design and enjoy within the walls of our homes. To compliment our wide variety of dedicated outdoor loudspeakers, we proudly present the Boomtomb in-ground subwoofer.

BoomTomb™ In-Ground Subwoofer

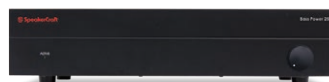

Bury this waterproof enclosure in the backyard, in a flower bed, at the edge of the lawn or near the pool and the long excursion 10-inch woofer will shake the earth. Vented through a hooded port, the only exposed element of the system, the bass will support any number of Ruckus, Outdoor Elements or OG speakers in the vicinity. Powered by a dedicated external 250-watt amplifier, the Boomtomb will bring your landscape to life.

Boomtomb™
