

CRS3 Series

Design and installation flexibility is a major component in a custom audio system. Our broad selection of in-wall and in-ceiling speakers gives dealers the opportunity to select just the right speaker for each application.

The CRS3 is a perfect example of a speaker that fits a certain niche. Designed to match the size and shape of a standard can light, the CRS3 blends discreetly into the décor. Its 3-inch aluminum driver delivers clean articulate sound and, coupled with either an in-wall or freestanding subwoofer, will satisfy even the most demanding listener.

In larger areas, several CRS3's spread judiciously around the room will fill the environment with sound while remaining visually unobtrusive. Also ideal for bathrooms, bedrooms, kitchens and dining rooms, these incredibly small speakers will become a favorite once you have had the chance to see them installed and hear them perform.

CRS3

- Small Footprint In-Ceiling
- 3" Full Range Aluminum Cone Woofer
- Timbre-Matched to All Three Series
- Efficiency: 86dB 1W/1m
- Power Handling: 40 Watts
- Impedance: 8 Ohm Compatible
