High Performance Landscape Subwoofers

Bold Outdoor Performance with Exceptional Durability

Complete your outdoor listening experience and hear the rocking bass you've been missing with Procient® Signature Series Landscape Subwoofers.

Built with the same material that's used to distribute municipal water underground, the waterproof enclosure is buried leaving only a discrete canopy that blends into the

outdoor environment. It is also protected by an aluminum grille, ensuring water, dirt, and critters don't get inside.

Available in 2 sizes, the subwoofer, cabinet and port design are computer-optimized to deliver deep distortion-free bass that fills your outdoor space.

FEATURES

Built to Last - Waterproof HDPE enclosures are made from the same material used in municipal water supply lines. We even dunk test every subwoofer before it ships to ensure no leaks.

High-Flow Port Design - The internal design of the port and canopy assembly spreads moving air evenly in a 360-degree pattern, reducing air turbulence and eliminating annoying port noise.

Woofer-Cooling Air Flow - The woofer magnet is located on the vented side of the enclosure which allows it to be cooled by airflow in and out the enclosure providing added longevity to the motor structure.

Critter-Proof Cover - The port assembly is covered by an aluminum mesh grille that allows unrestricted airflow yet prevents intrusion of bugs, animals and debris.

Performance - The subwoofer's low impedance 8Ω design is the best option when it comes to delivering jaw dropping performance in an outdoor environment.

	Woofer	Enclosure	Sensitivity	Frequency Response	Power Handling	Nominal Impedance	Warranty
 PAS-AW-GSBSUB-12	12" (300mm) Mica-injected Polypropylene cone with NBR Surround	Waterproof HDPE buried enclosure with critter-proof port assembly	86dB	28Hz-120Hz +/- 3dB	Up to 500W	8 ohms	5-Year
 PAS-AW-GSBSUB-10	10" (250mm) Mica-injected Polypropylene cone with NBR Surround	Waterproof HDPE buried enclosure with critter-proof port assembly	86dB	30Hz-120Hz +/- 3dB	Up to 300W	8 ohms	5-Year
